# Add Even More Context to Your Insights With Komodo Partner Data Enhancements

Seamlessly integrate a network of insights from our specialty data partners to contextualize any patient journey

- Genomics
- Labs
- EHR
- SDoH
- Chargemaster

And More!

Healthcare Map®

MapEnhance® expands our platform capability, allowing users to quickly leverage the depth and breadth of Komodo's Healthcare Map®. Along with data provided by Komodo-built enhancements and our third-party data partners, MapEnhance adds layers of nuance and draws connections between specific treatment pathways and outcomes. Now, high-fidelity insights and seamless, flexible linkages across internal sources provide a deeper look into the patient journey than ever before.

MapEnhance combined with Komodo's Healthcare Map offers:

▸ **High-quality data foundation** — the largest longitudinal source of U.S. patient journeys, including both open and closed patient records

▸ **Breadth of sources** — specialty datasets highly curated by Komodo and our partner sources, all seamlessly linked

▸ **Analysis-ready** — data products that are pre-integrated and fit for purpose upon delivery

▸ **Technology-first approach** — software-enabled and linked to Komodo's applications suite

Partner Data Enhancements

We have partnered with leading third-party data providers to offer a variety of unique and niche insights in our MapEnhance solution that add new layers of dimension and depth to your workflows. These enhancements are in a state of readiness and can be seamlessly linked to the Healthcare Map through one easy-to-execute contract so you can get the insights you need faster. With Komodo's partner-data enhancements, have confidence that your data is:

✓ **Pre-certified**   ✓ **Patient-linked**   ✓ **App-enabled**

Partner data enhancements add insights from:

Genomics
Patient genetic makeup, including DNA sequences, genetic variants, and predisposition to specific diseases — germline vs. somatic

Lab Tests
Biological samples, such as blood, urine, tissue, and various aspects of health, including cholesterol and blood glucose levels, etc.

EHR
Clinical insights into patient medical history and status, such as orders, charts, and imaging, as well as access to structured and unstructured assessments

Chargemaster
Comprehensive database of all hospital products, procedures, and services billed for inpatient stays, including other hospital-owned channels

SDoH
Key patient/household-level information surrounding demographics, geography, lifestyle, financial, and other environmental insights

And More!

ABOUT KOMODO HEALTH

Komodo Health® is a technology platform company creating the new standard for real-world data and analytics. We pair the industry's most complete view of patient encounters with enterprise software and machine learning to connect the dots between individual patient journeys and large-scale health outcomes. Across Life Sciences, payers, providers, and developers, we help our customers unearth patient-centric insights at scale. We marry clinical data with advanced algorithms and AI-powered software solutions to inform decision-making, close gaps in care, address disease burden, and help enterprises create a more cost-effective, value-driven healthcare system. For more information, visit **Komodohealth.com**.
